How to read your Kundli

The Kundli is a planetary snapshot of your birth moment. Three anchors matter most:

- **Lagna (Ascendant)** — the Rashi rising at the eastern horizon at your birth.

- **Moon Rashi** — the Rashi the Moon occupied. The foundation of Vedic emotional reading.
- **Nakshatra** — the lunar mansion (one of 27) the Moon occupied.

Planets are read by sign, house, and state (exalted, debilitated, retrograde, combust).

KAALVEDA

THE MATH OF TIME

Your Kundli is the math of your birth moment.

Planetary positions computed from JPL DE441 ephemeris via the Kaalveda sidecar, using Lahiri ayanamsa. The chart is deterministic — re-running the same DOB / time / place yields the same chart byte-for-byte.
